HIGH FIDELITY SIMULATION CENTER

Milan, May 24-26, 2023

The purpose of **High Fidelity Simulation** in the meeting venue is to offer participants the opportunity of facing real-life scenarios with the aim of implementing their skills while working in safe conditions outside their “comfort zone”. The HFS sessions involve the use of state-of-the-art advanced simulators and give participants an active role in the simulation scenarios.

FINAL REPORT CHAMPIONS LEAGUE ROAD TO SMART 2023

Milan, May 24-26, 2023

In collaboration with Accurate, we took care of the organization of a Champions League of advanced simulation reserved for residents with challenges on anesthesia, resuscitation and emergency scenarios.

The competition involved 12 teams from different universities. After two preliminary rounds held in Parma at the SimulaHub Simulation Center, the winners of each round met in Milan during the 34th SMART for the semi-finals and final.

Enthusiasm, competence, passion and a large audience support contributed to the success of the initiative which ended with an emotional award ceremony in the heart of the Exhibition Area.

Thanks to the Specialization Schools that participated with their teams, WERFEN and DIMAR for their essential support and all the companies that supplied the equipment.
